Seeking a position as a UI Developer (14+ Years of experience)

I have 14+ years of professional IT experience in end-to-end software development including High Level Visual Responsive UI Development (UI/UX).

PROFESSIONAL SUMMARY

- A dynamic professional with nearly 14+ Years of rich experience in the domain of Web Designing & Development.
- Front-end (UI) technologies such as HTML5, CSS3, Mobile Responsive Development, Bootstrap, JavaScript, React and Word Press, Fix the issues in the lower versions of IE Browsers also.
- Good exposure with Templates Design, Integration, bug fixing, Image Optimizing, Banners, Advertisements, Logo Designing etc..
- Working knowledge of front end optimization & performance techniques.
- Makes design recommendations towards the development of new code or reuse of existing code.
- Strong experience in working on user interface web applications
- Experience in developing the business web applications by “Hand-Coding” methodology using HTML and CSS based on the W3C standards.
- Knowledge of using React for building reusable UI components in client side.
- Divided my dashboard into grids using the Bootstrap Layouts.
- Use of asynchronous data send and retrieval patterns to develop rich in-browser user interfaces
